Eagles call sheet, Week 5 at Jacksonville

The plays, drawn from the sheet's formations with the Rams 2022 line work

Every diagram is one of the 862 book plays in PlayForge, named with the Green Bay words. The caption gives the sheet's call, then the book play it is drawn from (its name, the book's formation line, the section and page). 'Closest in the book' means the book has no play by that word and this is the nearest concept. 'Not in the Rams book' means the call is a Green Bay or Eagles word with no Rams cell. Where the sheet names a formation, the play is drawn from that formation (the book's line work moved onto it); the caption also gives the formation the book uses.

38 diagrams found, 13 calls with no book play.
